

NEW! Steel Brushes to support AC308 hole cleaning

New Steel Brushes (SB) are now available! Header card is attached for easy merchandising.

The individual brushes can be attached to a regular drill to make the hole cleaning fast and effective.

If an SDS+ hammer drill is used, please order the new item **ESDS-38** with a 12" useable extension and the SDS+ adaptor. This item works for all hole sizes except 7/16" diameter.

If a drill can not be used for hole cleaning, order the **EHAN-38** (with a 12" useable extension) for manual hole cleaning.

NOTE: When using the steel brush in a drill or SDS+ Hammer Drill, please reduce down a brush size for longer brush life". Example: Holes drilled to

use a 1/2" diameter anchor and the new Red Head steel brush will be used in a drill to clean the hole, use the steel brush part #SB-038. If holes cleaned by hand, use the SB-012.

The SB brushes replace the previous BW wire brushes.

ESDS-38
 12" Extension with
 SDS+ Adaptor
 (Brush not included)

EHAN-38
 12" Extension
 with T-Handle
