## **ITW RED HEAD OPENS NEW MIDWEST DISTRIBUTION CENTER**

ITW Red Head, an Illinois Tool Works Construction Products company, has opened a new Midwest distribution center in the Chicago suburb of Itasca, Ill.

The center, which replaces a smaller facility in nearby Wood Dale, Ill., is fully operational for both shipments and will call orders. The new facility will distribute to customers Red Head's high-performance fastening products used in concrete and steel construction, such as the popular Tapcon<sup>®</sup> anchor with Advanced Threadform Technology<sup>™</sup> and the company's A7 Acrylic Adhesive System.

"This expansion of our warehousing operation in the Midwest is due to the continued growth of our business and will further boost our already industry-leading order fulfillment performance," said Mike O'Reilly, ITW Red Head general manager. "The new facility, which features the latest in order processing and shipping technologies, demonstrates our commitment to providing optimum service levels to our customers."

The center is located at 1345 Hamilton Parkway in Itasca, Ill. Its customer service team is available 7 a.m. through 5:30 p.m. (Central Standard Time) Mondays through Fridays. The toll-free phone number is 800-348-3231.

Based in Addison, Ill., ITW Red Head manufactures mechanical and adhesive anchoring systems used in commercial construction and industrial applications. For more information, contact ITW Red Head at 1-800-899-7890 or visit [www.itw-redhead.com](http://www.itw-redhead.com).
