**SILVA NAMED WESTERN REGIONAL FIELD ENGINEER  
FOR ITW RED HEAD**

Claudio Silva has joined ITW Red Head as western regional field engineer. ITW Red Head, an Illinois Tool Works Construction Products company based in Addison, Ill., manufactures mechanical and adhesive anchoring systems used in commercial construction and industrial applications.

Silva, 41, will work closely with Red Head's field sales force in using Red Head product approvals and listings to gain job site specification and will provide additional on-site support. He also will partner with the company's product specialists to provide technical assistance.

Silva brings to Red Head extensive knowledge of structural engineering design. Previously, he served as project engineer for Kanda and Tso Associates Consulting Structural Engineers, a consulting firm based in Southern California.

"Claudio will provide invaluable support to the Red Head team regarding the ever-changing building codes throughout the country," said Gerry Adams, Red Head's national sales manager. "His hiring exemplifies our commitment to growing the Red Head brand, and to delivering optimal products and services to architects, engineers, and contractors."
