Re: Red Head G5+ Anchoring System

Dear Mr. Kumar,

The Virginia Department of Transportation has evaluated ITW's Red Head G5+ Anchoring System as a chemical anchor fastening system. This product has met the requirements to be put on our approved list No. 29 for Chemical Anchors. ITW Commercial Construction's Red Head G5+ must also meet our field requirements when used on the job site.

For this product to remain on Approved List No. 29, each year in November, ITW Commercial Construction will have to send Materials Division a notarized letter stating that the original formula has not changed since it was originally evaluated.

If I can be of further assistance, please call me at (804) 328-3135.

Sincerely,

A handwritten signature in cursive script that reads "K. K. Williams".

Keith Williams
Engineer I
