RE: ITW Commercial Construction North America – Red Head G5+

Dear Ms. Kolczak,

The Nevada Department of Transportation (NDOT) has reviewed the application for the Red Head G5+ product for the Qualified Products List (QPL) category 728.03.02 EPOXY RESIN ADHESIVE FOR BONDING. The product meets NDOT specifications and therefore will be added to the QPL with the following remarks: *"Type I, II, IV, and V; Grade 3; Class B and C."*

It must be emphasized that this QPL is only used to pre-qualify products. Product approval should not be construed as a performance guaranty nor is it intended as an endorsement by NDOT. Your products will remain on the QPL as long as their performance is satisfactory. Poor performance in the field will result in suspension or removal from the QPL as per established NDOT product evaluation procedures. ***NDOT evaluation procedures further require that any modification of your products or a change in manufacturer's name and address should be conveyed to the NDOT Research Division in a timely manner (defined as 30 days from action).*** Failure to disclose this information may result in suspension of this approval or removal from the QPL.

Should you have any questions regarding this matter, please contact me at 775-888-7894.

Sincerely,

A handwritten signature in blue ink, appearing to read "Sabra Gilbert-Young", with a long horizontal flourish extending to the right.

Sabra Gilbert-Young
Product Evaluation Coordinator
