Using the fixture as a template, drill the correct diameter and depth hole.

Remove debris with vacuum or hand pump.

Insert the assembled Boa Coil anchor. (The coil anchor tab points up the anchor.) Tap anchor down to depth set mark and stop.

Tighten until washer is firmly held to the fixture and stop. Number of turns to set anchor: 1/2" (3-4 turns), 5/8" (4-5 turns), and 3/4" (4-5 turns). Ensure washer is tight and snug fit.

The anchor is ready to take load. (The bolt can be removed leaving the coil in the hole.)

The Boa Coil anchor can be reused up to 3 times in new holes.
